<b>Fellowship Director</b>	Bruce R. Gilbert, MD PhD
<b>Fellowship Administrator</b>	
<b>Candidate Citizenship Requirement</b>	<input type="checkbox"/> US only <input type="checkbox"/> US & Canadian <input checked="" type="checkbox"/> All Nationalities must have a full and active medical license for practice in New York
<b>Fellowship Duration</b>	<input checked="" type="checkbox"/> 12 months <input type="checkbox"/> 24 months <input type="checkbox"/> Other _____ months
<b>Type of Fellowship</b>	<input type="checkbox"/> Sexual Medicine <input checked="" type="checkbox"/> Sexual & Reproductive Medicine
<b>Research Available</b>	<input checked="" type="checkbox"/> Mandatory <input type="checkbox"/> Optional <input type="checkbox"/> Clinical research <input type="checkbox"/> Laboratory research <input checked="" type="checkbox"/> Both
<b>Fellowship Overview (300 words)</b>	<p>It is the mission of the Men’s Health/Andrology Fellowship to provide the Fellows with a comprehensive postgraduate training in the core disciplines of reproductive and sexual medicine and surgery, urinary prosthetics and reconstructive surgery as well as hypogonadism and complex disorders of the hypothalamic-pituitary-gonadal axis. The faculty feels that the combination of these specialized areas provides the Fellow with the comprehensive clinical and surgical knowledge to handle the most complex problems.</p> <p>The one year Fellowship is based at The Smith Institute for Urology of the Northwell Health System and will use many resources of the Health System to provide a comprehensive educational experience. The Fellow’s time will be divided as follows: 70% Clinical, 15% Clinical laboratory and 15% Research. Consultative work will be at the Smith Institute for Urology out patient facilities. The Clinical Andrology lab work will be centered at a New York State Licensed Andrology Laboratory and Reproductive Tissue Bank.</p>

	<p>There are also opportunities for the Fellow to rotate with our senior faculty at several of our affiliated Hospitals to gain an extensive clinical experience with complex cases.</p> <p>Our Fellowship program provides an opportunity for the Fellow to concentrate in areas that he or she is most interested in yet structured to assure that the Fellow obtains expertise in the core disciplines. In addition, the Fellow will obtain advanced training in ultrasound evaluation and andrology laboratory techniques. The fellow will also be involved in clinical and/or basic science research activities during the training period. He or she will work closely with the Program Director and Faculty to design and implement research projects, with the expectation those projects will culminate in presentations at national meetings and publications in peer-reviewed journals</p>
<b>Research Focus (300 words)</b>	<p>The Fellow will become involved in ongoing research protocols and/or develop his or her own. Opportunities are available for both basic science and clinical research.</p>
<b>Surgical Procedures Performed</b>	<p><input type="checkbox"/>Crural ligation  <input checked="" type="checkbox"/> Penile fracture repair  <input checked="" type="checkbox"/> Plaque incision/excision and grafting  <input checked="" type="checkbox"/> Penile implant  <input type="checkbox"/> Penile revascularization  <input checked="" type="checkbox"/> Penile plication  <input checked="" type="checkbox"/> Priapism shunting  <input type="checkbox"/> Vulvar surgery</p> <p><input checked="" type="checkbox"/> Percutaneous sperm extraction  <input checked="" type="checkbox"/> TESE  <input checked="" type="checkbox"/> Varicocele ligation  <input checked="" type="checkbox"/> Electroejaculation  <input checked="" type="checkbox"/> Vasectomy  <input checked="" type="checkbox"/> Vasovasostomy  <input checked="" type="checkbox"/> Vasoepididymostomy</p> <p><input checked="" type="checkbox"/> Other    Hormonal treatment for both Sexual and Reproductive medicine, Peyronie’s disease medical and surgical treatments</p>

<b>Office Procedures Performed</b>	X Cavernosometry/cavernosography X Duplex Doppler Ultrasound X Intracavernosal injections X Intralesional injections X Penile deformity assessment X Testosterone pellet insertion  <input type="checkbox"/> Other _____
