Research Available	<input type="checkbox"/> Mandatory <input checked="" type="checkbox"/> Optional <input type="checkbox"/> Clinical research <input type="checkbox"/> Laboratory research <input checked="" type="checkbox"/> Both
Fellowship Overview (300 words)	<p>The fellowship program at Baylor College of Medicine has been in existence since 1982 and, as of July 2017, over 100 fellows have been trained in the fellowship both here and abroad. All applicants must successfully complete an ACGME-approved Urology residency. Interviews are held in Houston, Texas, over two days. The successful applicants will develop clinical expertise in the diagnosis and treatment of male patients with reproductive failure including infertility, erectile dysfunction, and hypogonadism. A focus on penile prosthetics and the diagnosis and treatment of erectile dysfunction is a strong part of the fellowship. They will gain proficiency in microsurgical techniques required to treat the patient with reproductive dysfunction, including vasal or epididymal obstruction and varicocele repair. Decision making in assisted reproductive techniques as it pertains to sperm acquisition procedures such as micro-epididymal sperm aspiration (MESA) and microscopic testicular sperm extraction (TESE) will be developed. Fellows will attend all outpatient clinics with Dr. Lipshultz and participate in both operating room and clinical procedures.</p>

Research Focus (300 words)	All fellows are expected to submit abstracts to the American Society of Reproductive Medicine (ASRM), American Urological Association (AUA), and to the Sexual Medicine Society of North America (SMSNA) annual meetings. The majority of the projects are clinic, but basic science options are available. Each fellow is expected to publish at least one clinical paper during the fellowship.
Surgical Procedures Performed	<input type="checkbox"/> Crural ligation <input checked="" type="checkbox"/> Penile fracture repair <input checked="" type="checkbox"/> Plaque incision/excision and grafting <input checked="" type="checkbox"/> Penile implant <input type="checkbox"/> Penile revascularization <input checked="" type="checkbox"/> Penile plication <input checked="" type="checkbox"/> Priapism shunting <input type="checkbox"/> Vulvar surgery <input checked="" type="checkbox"/> Percutaneous sperm extraction <input checked="" type="checkbox"/> TESE <input checked="" type="checkbox"/> Varicocele ligation <input checked="" type="checkbox"/> Electroejaculation <input checked="" type="checkbox"/> Vasectomy <input checked="" type="checkbox"/> Vasovasostomy <input checked="" type="checkbox"/> Vasoepididymostomy <input type="checkbox"/> Other _____
