EDUCATION

A leader in providing quality, evidence-based urologic education.

Offer valuable resources for residency training programs, practicing urologists and for maintenance of certification:

• Instructional Courses
• Live Surgery Sessions
• Hands-on Courses
• Self-study Products
• Online educational portfolio
Lifelong learning that allows you to access all your educational needs, anytime, anywhere

- More than 400 courses/events
- New Podcast Series
- Claim CME credits
- Review and print transcripts
- 6,000+ Abstracts

Advancing Urology™
Advancing Urology
Through Advocacy
Advocacy At A Glance: 2015

- >150 Physician Volunteers
- 1,615 Grassroots advocacy messages sent to Congress by AUA members
- 400 Hill meetings between AUA members, AUA staff and Congressional offices
- >100 Coalition meetings attended
- 60 Staffers who attended AUA Hill Briefing on USPSTF Act
- 10 Coalitions in which the AUA participates
- 3 Meetings with federal agencies, including CMS and FDA
Advancing Urology Through Advocacy
Advocacy At A Glance: 2015

- 1,130 Coverage policies reviewed by staff and physician volunteers
- 17 Formal letters to insurers on key urologic issues
- 7 Comment letters on federal regulations
- 13 Action plans presented to RUC Relativity Assessment Workgroup
- 9 Codes presented to AMA CPT Editorial Panel
- 5 In-depth policy coverage review projects
- 14 Regulatory meetings
Advocacy Priorities

- Ensure PSA Access
- Reform USPSTF Recommendations Process
- Protect In-Office Ancillary Services Exception
- Address Workforce Shortages
- Oppose Part B Drug Payment Model
Advocacy Priorities

- Minimize Negative Impact of MU/EHR
- Address ACA 90-day Grace Period
- Increase Urology Research Funding
- Repeal IPAB
- Enact Medical Liability Reform
- Promote Bladder Health Initiatives
Science & Quality

Baby, It’s Spring!

Signs of life are budding all around us as we enter spring. The season of Spring represents fertility, renewal, rebirth, and the shedding of old patterns to make way for the new. Fruits and vegetables are plentiful and fresh, which is great news for couples trying to have a baby. That’s because a well-balanced diet with fruits, vegetables, nuts and whole grains can help improve fertility.

One recent study suggests orange and yellow produce, particularly carrots, can increase the quantity and quality of sperm. Another study found men who ate about 2/3 cup of walnuts each day for three months had better sperm quality and movement. Cutting down on saturated fat may help improve male fertility, too. Sticking with a whole-body approach that includes eating a healthy diet, losing those extra pounds, drinking less alcohol and coffee and getting enough sleep is the best way to keep those sperm healthy and moving.

Spinach and Pepper Salad
Makes 1 Salad

INGREDIENTS:
- 1 (10 oz) bag baby spinach
- 1/4 cup cherry tomatoes, halved
- 1/2 red bell pepper, thinly sliced
- 1/3 cup crumbled feta cheese
- 1/4 cup red onion, thinly sliced
- 2 Tbsp olive oil
- 1 Tbsp red wine vinegar
- Salt and pepper

DIRECTIONS:
1. Combine all ingredients in a bowl.
2. Toss gently.
3. Dress with olive oil and vinegar and season with salt and pepper.

Here are three easy-to-make, fertility-boosting recipes that include lots of fresh vegetables. Try the Cucumber-Carrot Salad, which is also healthy for your kidneys.

1. **Cucumber-Carrot Salad**
2. **Spinach and Pepper Salad**
3. **Garlic Spinach Salad**

Our Foundation,
Because We Care.
We care that urologic research is sufficiently funded so that cures can be found to alleviate the suffering.
