Research Available	<input checked="" type="checkbox"/> Mandatory <input type="checkbox"/> Optional <input checked="" type="checkbox"/> Clinical research <input type="checkbox"/> Laboratory research <input type="checkbox"/> Both
Fellowship Overview (300 words)	<p>Candidates have the opportunity to participate in a one-year clinically based research fellowship. Our highly specialized practice focuses on the surgical treatment of erectile dysfunction and incontinence, as well as the management of all aspects of men’s health and sexual function. Fellows will immerse themselves in the topics of surgical innovation, hypogonadism, Peyronie’s disease, erectile dysfunction, urinary incontinence, sexual function, penile girth enhancement, scrotal pathology, and benign prostate disease.</p> <p>You will benefit from a prospectively maintained patient database, which spans over a decade and includes thousands of patients. You will become skilled in the practice of drafting IRB submissions and the authorship of abstracts and peer-reviewed manuscripts. You will have the opportunity to present your data at a variety of local, regional, national, and international scientific meetings. Many of our current projects are multi-institutional studies, which will allow you to build a network with some of the world’s leading prosthetic surgeons and academic men’s health centers.</p>

	Recent urology residency graduates, foreign medical graduates, and non-traditional applicants are encouraged to apply. Preferred applicants will have previous research experience, proficiency with excel database maintenance, and a specific interest in prosthetic urology.
Research Focus (300 words)	See above.
Surgical Procedures Performed	<input type="checkbox"/> Crural ligation <input checked="" type="checkbox"/> Penile fracture repair <input type="checkbox"/> Plaque incision/excision and grafting <input checked="" type="checkbox"/> Penile implant <input type="checkbox"/> Penile revascularization <input checked="" type="checkbox"/> Penile plication <input type="checkbox"/> Priapism shunting <input type="checkbox"/> Vulvar surgery <input type="checkbox"/> Percutaneous sperm extraction <input type="checkbox"/> TESE <input type="checkbox"/> Varicocele ligation <input type="checkbox"/> Electroejaculation <input checked="" type="checkbox"/> Vasectomy <input type="checkbox"/> Vasovasostomy <input type="checkbox"/> Vasoepididymostomy <input type="checkbox"/> Other _____
