

The SMSNA is proud of its history of providing education. Established in 1994, the SMSNA held its first Annual Scientific Program at the AUA (American Urological Association) Annual Meeting that year. In 1999, the SMSNA launched a stand-alone meeting in Boston, MA which is now known as its Annual Fall Scientific Meeting.

To celebrate this history of educational meetings we have renamed each meeting with the progressive number of each meeting as it was held (i.e. 1st, 2nd, 3rd, etc.). We believe that this best represents our distinguished educational history.

In the renaming process we want to ensure that we document these changes well; reflecting both how the meeting was originally named and its new name, if it has been modified. Where you see the asterisk symbol *, the meeting was referenced differently in the past. If you need the original name of the meeting, please refer to the history of meetings below. In addition, we hope that this clarifies any past confusion over the naming of meetings.

NOTE: AUA Annual Meetings have included an SMSNA Annual Scientific Program since 1994. These Meetings typically take place in the Spring of each year and the SMSNA Program is named progressively beginning with the 1st Annual Scientific Program in 1994 to the 25th Annual Scientific Program held in 2018. This progressive numbering is only for the SMSNA Scientific Program held at the AUA. AUA's reference to their Annual Meeting is different.
