## **Hossein Sadeghi-Nejad, MD, FACS**

SMSNA President

Dear Colleagues,

It is my genuine pleasure to extend to you a warm welcome to the 20th Annual Fall Scientific Meeting of the Sexual Medicine Society of North America (SMSNA) in Nashville, TN. Established in 1994, our objective has been to promote, encourage, and support the highest standards of practice, research, education, and ethics in the study of sexual function and dysfunction. Our fall meeting has become increasingly recognized as the premiere gathering of sexual medicine experts and health care providers in North America focused on the advancement of scientific knowledge in all aspects of sexual health. The dedicated forum for the presentation of new ideas and various talks by expert lecturers presenting the latest cutting-edge developments in the field attracts attendees from the United States and across the globe as far away as Latin America, Europe, and the Asia Pacific region.

Our Meeting Committee Chair, Dr. Alexander Pastuszak, and the Meeting Committee have worked diligently to assemble an outstanding program of master lectures, panels, point-counterpoint debates, and poster sessions providing a wealth of information on diverse topics, encompassing exciting and timely advances in sexual health. The program will be of interest to specialists in all disciplines of sexual medicine whether you are a physician, an allied health / non-physician practitioner, mental health provider, scientific researcher, or other health professional.

The outstanding social program has been assembled with the help of our society staff and incorporates several events that will make your visit to the Nashville area memorable. No longer limited to its reputation as the undisputed home of country music, Nashville has undergone a dramatic transformation in the past 15 years with an influx of many young families, superbly talented chefs, and amazing rock and roll bands. In the words of NY Times' Callie Khouri, "One of the magical things about Nashville is just how many incredibly talented people are here and the way they support each other. Nashville is the place where I first realized how impossible it is to look at someone and know what is inside them, what special something they possess."

The SMSNA Foundation Event at the Country Music Hall of Fame on Friday, October 25th is certain to be a big hit. Affectionately referred to as the "Smithsonian of country music" because of its unrivalled collection, the museum boasts world class galleries and theatres, the legendary letterpress operation, and the Historic RCA Studio B on famed Music Row, Nashville's oldest surviving recording studio, where landmark recordings by Elvis Presley and Dolly Parton, Waylon Jennings, and many others were made.

The success of our meeting would not have been possible without the significant time commitment and efforts of our management company, Status Plus, whose team of dedicated members including Tessa Benitez, Bobbi Hahn, Vivian Gies, Melanie Jones, and David Casalod have contributed endless hours to oversee every detail and make this event a recurring success. We are proud to continue our efforts in promoting a rich tradition of inclusiveness, scholarship, and camaraderie that is well displayed with every year's scientific meetings. I welcome you to share your knowledge, contribute to our joint mission, and advance the field of sexual medicine. With your help and participation, we will achieve new heights in clinical excellence and service to our patients. I look forward to personally welcoming you.

*SMSNA Meeting Chair*

It is my great and sincere pleasure to welcome you to the 20th Annual Fall Scientific Meeting of the Sexual Medicine Society of North America (SMSNA) at the Omni Nashville Hotel in Nashville, Tennessee, October 24-27, 2019. The SMSNA Annual Fall Meeting continues to be the premier Sexual Medicine meeting, attracting surgeons, clinicians, scientists, allied health professionals and mental health specialists in the fields of urology, andrology, female sexual health, psychology, and psychiatry from around the globe. The Annual SMSNA Fall Meeting offers a broad range of learning and networking opportunities, from updates on cutting-edge surgical techniques and medical management approaches, to the latest basic and clinical research developments in the field, all in an ideal environment for the sharing of new ideas and establishment of collaborations.

The 20th Annual Fall Scientific Meeting of the SMSNA will highlight a diverse range of topics, including an exciting mixture of named lectures, State-of-the-Art Lectures, interactive sessions, debates, panel discussions, podium presentations and poster presentations. All of these will be delivered by world-renowned experts in their fields. The meeting will also feature a number of topical symposia including a Basic Science symposium, as well as instructional courses in hypogonadism, Peyronie's disease, female sexual dysfunction, and gay and transgender issues in sexual medicine.

In Nashville, music has been the common thread connecting the life and soul of the city and its people. Visitors come to the city to experience the music that weaves through its cultural, business and social fabric. However, Nashville is no longer defined only by music, now having bustling arts,

sports, and culinary scenes. The Omni Nashville Hotel was created specifically to be an authentic expression of the city's vibrant music culture. Across from the Music City Center, the Omni Nashville is fully integrated with an expansion of the Country Music Hall of Fame, sharing meeting and entertainment space, and provides an ideal place to host our scientific program!

On behalf of the Sexual Medicine Society of North America, I personally welcome you to Nashville!

## The Country Music Hall of Fame (connected to the Omni Hotel)

The Third Annual SMSNA Foundation Night celebrates the spirit and soul of Nashville at The Country Music Hall of Fame! Begin the evening with a tour through the museum's acclaimed galleries that will give you a sense of the universal appeal of country music. Walk through history from the earliest folk traditions to the music that thrills millions of fans today. The tour ends in the Hall of Fame Rotunda, which honors the artists who shaped country music. Here we will gather for a reception and enjoy a 3-Course Gala Dinner. The evening would not be complete without a live musical performance by the extraordinary talent of Nashville artists!

By purchasing a ticket for this event, you are supporting the SMSNA Foundation which partners with physicians, researchers, health care professionals, patients and the public to support treatment of sexual dysfunctions in men and women through research, education and position statements!
